About the Programme

The AWS Certified SysOps Administrator – Associate (SOA-C02) validates technical expertise in deployment, management, and operations of workloads on AWS. It is the most operations-focused of the associate-level certifications, covering monitoring, security, reliability, and migration.

EduEdge's SOA-C02 programme focuses on the day-to-day operational tasks of running AWS environments — from deployment automation and monitoring through cost optimisation, security hardening, and system recovery.
