Microsoft Azure Developer Associate

CERTIFICATION PROGRAMME

Build, Test & Deploy Cloud-Native Applications on Azure

EduEdge Certified

Exam: AZ-204

Live + On-Demand

Global Recognition

www.theeduedge.in | info@theeduedge.in

About the Programme

The AZ-204 Microsoft Certified: Azure Developer Associate validates expertise in designing, building, testing, and maintaining cloud applications and services on Microsoft Azure. Developers implementing Azure solutions participate in all phases of development — from design to deployment and monitoring.

EduEdge's AZ-204 programme is hands-on and code-first. You'll build real Azure applications using compute, storage, APIs, authentication, and serverless functions while learning to integrate Azure services into production-grade solutions.

WHY AZ-204?

Associate Azure Developer Certification	Code-First Hands-On Programme	Microsoft Globally Recognised
---	---	---

What Makes EduEdge Different?

■ Exam-Focused Curriculum Every session maps directly to AZ-204 exam objectives — zero wasted study time.	■■■ Expert Instructors Certified practitioners with real-world industry experience as your lead trainers.
■ Comprehensive Materials Curated notes, quick-reference guides, and access to an extensive question bank.	■ Mock Exams & Drills Multiple timed mock exams with detailed rationale to build exam-day confidence.
■ Live + On-Demand Attend live virtual sessions or learn at your pace with recorded access.	■ High Pass Rate Structured programme with mentorship resulting in strong first-attempt outcomes.

Programme Highlights

Duration	Instructor-led sessions + self-paced recordings
Format	Online (Live Virtual) / In-Person Weekend Batches
Exam Training	Fully satisfies Microsoft training requirements
Batch Size	Small cohorts for personalised attention (max 20 participants)
Language	English
Access	Lifetime access to recorded sessions & updated materials
Certificate	EduEdge Completion Certificate + AZ-204 Exam Support
Next Batch	Rolling intake — visit www.theeduedge.in for schedule

Who Should Attend?

- **Software Developers** building applications on or migrating to Azure.
- **Backend Developers** integrating Azure services into application architectures.
- **Full-Stack Developers** wanting formal Azure development certification.
- **AZ-900 Holders** who are developers ready for associate-level certification.
- **Cloud Engineers** bridging the gap between infrastructure and application development.

Eligibility Requirements

The following requirements apply before you can register for the AZ-204 certification. EduEdge advisors will guide you through eligibility verification and the application process.

	PRIMARY PATH	ALTERNATIVE
Recommended Experience	1–2 years of Azure development experience	Proficiency in a supported language (C#, Python, Java, JS)
Prerequisites	No mandatory prerequisite	Associate level — development background required
Training	EduEdge 40-hour programme	Covers all AZ-204 objectives

Exam Details

Exam Code	AZ-204
Questions	40–60
Duration	120 minutes
Domains	Develop Azure Compute Solutions Develop for Azure Storage Implement Azure Security Monitor, Troubleshoot & Optimise Connect to & Consume Azure Services
Passing Score	700/1000
Validity	Renew annually (free online)
Exam Fee	USD 165

Ready to register for AZ-204?

Our advisors will help you verify eligibility and plan your study path.

Course Curriculum

Our AZ-204 curriculum is structured around the official Microsoft exam content outline (AZ-204), ensuring complete topic coverage with practical application throughout.

M1	Azure Compute Solutions App Service, Azure Functions (serverless), containerised apps, Azure Container Registry
M2	Azure Storage for Developers Blob storage SDK, Cosmos DB, Azure Cache for Redis, storage queues
M3	Authentication & Authorisation Microsoft Identity Platform, OAuth 2.0, managed identities, MSAL, App registrations
M4	Azure Key Vault Secrets management, certificate management, key management, app integration
M5	API Management & Service Bus Azure API Management, Event Grid, Event Hubs, Service Bus messaging patterns
M6	Logic Apps & Durable Functions Workflow automation, stateful serverless, orchestrations, external events
M7	Monitoring & Optimisation Application Insights, distributed tracing, performance tuning, caching strategies
M8	Exam Preparation AZ-204 coding labs, 600+ practice questions, scenario reviews, mock exams

■ **Exam Domain Coverage:** Develop Azure Compute Solutions | Develop for Azure Storage | Implement Azure Security | Monitor, Troubleshoot & Optimise | Connect to & Consume Azure Services

Learning Outcomes

By the end of the EduEdge AZ-204 programme, you will be able to:

- Build and deploy Azure-hosted web applications and APIs using App Service.
- Develop serverless solutions using Azure Functions and Durable Functions.
- Integrate Azure Cosmos DB, Blob Storage, and Redis into applications.
- Implement authentication and authorisation using Microsoft Identity Platform.
- Manage application secrets securely using Azure Key Vault.
- Design event-driven and message-based architectures using Azure Service Bus and Event Grid.
- Monitor and optimise application performance using Application Insights.
- Pass the AZ-204 Azure Developer Associate exam.

Career Opportunities

AZ-204-certified professionals are sought across industries worldwide. Common roles include:

Azure Developer	Cloud Application Developer	Backend Engineer (Azure)
Serverless Developer	API Engineer	DevOps Engineer
Full-Stack Developer (Azure)	Cloud Native Developer	Solutions Developer

Exam Preparation Strategy

Passing the AZ-204 on your first attempt requires more than content knowledge — it demands a strategic, structured approach. EduEdge provides a 360° preparation ecosystem tailored to this certification.

■ Study Materials Curated notes, quick-reference cards, and formula/concept sheets aligned to exam objectives.	■ Practice Question Bank Extensive exam-style question bank with detailed answer rationale for every question.
■ Timed Mock Examinations Full-length mock exams simulating actual exam conditions with performance analytics.	■ Recorded Sessions Lifetime access to all live session recordings — revisit complex topics anytime.
■ Cohort Study Groups Peer learning groups for collaborative problem solving and accountability.	■ 1:1 Mentorship Direct access to instructors for doubt resolution and personalised study plans.

Recommended Study Timeline

PHASE	FOCUS	APPROXIMATE HOURS
Foundation	Core concepts and AZ-204 framework overview	8–12 hrs
Deep Dive	Domain-by-domain coverage with practice questions	20–30 hrs
Application	Lab work, scenario exercises, and case studies	8–12 hrs
Exam Prep	Mock exams, gap analysis, and revision	10–15 hrs
Final Review	Exam readiness check and last-day strategy	4–6 hrs
