AWS Certified Developer – Associate

CERTIFICATION PROGRAMME

Build, Deploy & Debug Cloud-Native Applications on AWS

EduEdge Certified	Exam: DVA-C02	Live + On-Demand	Global Recognition
-------------------	---------------	------------------	--------------------

www.theeduedge.org | info@theeduedge.org

About the Programme

The AWS Certified Developer – Associate (DVA-C02) validates proficiency in developing, deploying, and debugging cloud-based applications using AWS. It covers AWS SDKs, APIs, deployment automation, and serverless development patterns.

EduEdge's DVA-C02 programme is developer-first and hands-on. You'll write code, deploy applications, and integrate AWS services using the SDK — building real applications while mastering the exam content.

WHY DVA-C02?

Developer Focused AWS Certification	Serverless & DevOps Coverage	AWS Global Standard
---	--	---

What Makes EduEdge Different?

■ Exam-Focused Curriculum Every session maps directly to DVA-C02 exam objectives — zero wasted study time.	■■■ Expert Instructors Certified practitioners with real-world industry experience as your lead trainers.
■ Comprehensive Materials Curated notes, quick-reference guides, and access to an extensive question bank.	■ Mock Exams & Drills Multiple timed mock exams with detailed rationale to build exam-day confidence.
■ Live + On-Demand Attend live virtual sessions or learn at your pace with recorded access.	■ High Pass Rate Structured programme with mentorship resulting in strong first-attempt outcomes.

Programme Highlights

Duration	Instructor-led sessions + self-paced recordings
Format	Online (Live Virtual) / In-Person Weekend Batches
Exam Training	Fully satisfies AWS training requirements
Batch Size	Small cohorts for personalised attention (max 20 participants)
Language	English
Access	Lifetime access to recorded sessions & updated materials
Certificate	EduEdge Completion Certificate + DVA-C02 Exam Support
Next Batch	Rolling intake — visit www.theeduedge.org for schedule

Who Should Attend?

- **Software Developers** building applications on AWS.
- **Backend & Full-Stack Developers** integrating AWS services into applications.
- **Cloud Practitioner Holders** who are developers advancing to associate level.
- **DevOps Engineers** developing and deploying on AWS infrastructure.
- **AWS Solutions Architect Holders** adding a developer certification to their portfolio.

Eligibility Requirements

The following requirements apply before you can register for the DVA-C02 certification. EduEdge advisors will guide you through eligibility verification and the application process.

	PRIMARY PATH	ALTERNATIVE
Recommended Experience	2 years of developing and maintaining AWS applications	Proficiency in at least one programming language
Prerequisites	No mandatory prerequisite	Associate level — development background required
Training	EduEdge 40-hour programme	Covers all DVA-C02 objectives

Exam Details

Exam Code	DVA-C02
Questions	65
Duration	130 minutes
Domains	Development with AWS Services (32%) Security (26%) Deployment (24%) Troubleshooting & Optimisation (18%)
Passing Score	720/1000
Validity	3 years
Exam Fee	USD 150

Ready to register for DVA-C02?

Our advisors will help you verify eligibility and plan your study path.

Course Curriculum

Our DVA-C02 curriculum is structured around the official AWS exam content outline (DVA-C02), ensuring complete topic coverage with practical application throughout.

M1	AWS SDK & CLI Boto3 (Python), JS SDK, Java SDK, credential management, AWS CLI scripting
M2	Serverless Development Lambda functions, API Gateway, event sources, DynamoDB streams, Step Functions
M3	Application Integration SQS, SNS, EventBridge, Kinesis, decoupled architecture patterns
M4	Containers on AWS ECS, EKS, Fargate, ECR, container deployment patterns
M5	CI/CD on AWS CodeCommit, CodeBuild, CodeDeploy, CodePipeline, deployment strategies
M6	Security for Developers Cognito, IAM roles, STS, Secrets Manager, KMS, parameter store
M7	Monitoring & Troubleshooting CloudWatch, X-Ray distributed tracing, CloudTrail, debugging best practices
M8	Exam Preparation DVA-C02 coding scenarios, 600+ practice questions, SDK labs, mock exams

■ **Exam Domain Coverage:** Development with AWS Services (32%) | Security (26%) | Deployment (24%) | Troubleshooting & Optimisation (18%)

Learning Outcomes

By the end of the EduEdge DVA-C02 programme, you will be able to:

- Build and deploy serverless applications using Lambda, API Gateway, and DynamoDB.
- Integrate AWS services using the SDK in Python, JavaScript, or Java.
- Implement CI/CD pipelines using CodeCommit, CodeBuild, CodeDeploy, and CodePipeline.
- Secure AWS applications using Cognito, IAM roles, and Secrets Manager.
- Design event-driven and message-based application architectures.
- Deploy and manage containerised applications on ECS and EKS.
- Monitor, debug, and optimise application performance using CloudWatch and X-Ray.
- Pass the AWS Certified Developer Associate DVA-C02 exam.

Career Opportunities

DVA-C02-certified professionals are sought across industries worldwide. Common roles include:

AWS Developer	Cloud Application Developer	Serverless Developer
Backend Engineer (AWS)	DevOps Engineer	Full-Stack Developer (AWS)
Cloud Native Developer	API Engineer	Solutions Developer

Exam Preparation Strategy

Passing the DVA-C02 on your first attempt requires more than content knowledge — it demands a strategic, structured approach. EduEdge provides a 360° preparation ecosystem tailored to this certification.

■ Study Materials Curated notes, quick-reference cards, and formula/concept sheets aligned to exam objectives.	■ Practice Question Bank Extensive exam-style question bank with detailed answer rationale for every question.
■ Timed Mock Examinations Full-length mock exams simulating actual exam conditions with performance analytics.	■ Recorded Sessions Lifetime access to all live session recordings — revisit complex topics anytime.
■ Cohort Study Groups Peer learning groups for collaborative problem solving and accountability.	■ 1:1 Mentorship Direct access to instructors for doubt resolution and personalised study plans.

Recommended Study Timeline

PHASE	FOCUS	APPROXIMATE HOURS
Foundation	Core concepts and DVA-C02 framework overview	8–12 hrs
Deep Dive	Domain-by-domain coverage with practice questions	20–30 hrs
Application	Lab work, scenario exercises, and case studies	8–12 hrs
Exam Prep	Mock exams, gap analysis, and revision	10–15 hrs
Final Review	Exam readiness check and last-day strategy	4–6 hrs
