About the Programme

The AZ-500 Microsoft Certified: Azure Security Engineer Associate credential validates expertise in implementing security controls, maintaining security posture, managing identity and access, and protecting data and applications in Azure environments.

EduEdge's AZ-500 programme is designed for security engineers and cloud professionals who need to design and implement the security layer across Azure workloads — from identity hardening to threat detection and regulatory compliance.

WHY AZ-500?

Associate

Azure Security Specialisation

High Demand

Cloud Security Engineers

What Makes EduEdge Different?

■ Exam-Focused Curriculum Every session maps directly to AZ-500 exam objectives — zero wasted study time.	■■■ Expert Instructors Certified practitioners with real-world industry experience as your lead trainers.
■ Comprehensive Materials Curated notes, quick-reference guides, and access to an extensive question bank.	■ Mock Exams & Drills Multiple timed mock exams with detailed rationale to build exam-day confidence.
■ Live + On-Demand Attend live virtual sessions or learn at your pace with recorded access.	■ High Pass Rate Structured programme with mentorship resulting in strong first-attempt outcomes.

Programme Highlights

Duration	Instructor-led sessions + self-paced recordings
Format	Online (Live Virtual) / In-Person Weekend Batches
Exam Training	Fully satisfies Microsoft training requirements
Batch Size	Small cohorts for personalised attention (max 20 participants)
Language	English
Access	Lifetime access to recorded sessions & updated materials
Certificate	EduEdge Completion Certificate + AZ-500 Exam Support
Next Batch	Rolling intake — visit www.theeduedge.org for schedule

Who Should Attend?

- **Azure Administrators (AZ-104)** adding a security specialisation to their skill set.
- **Security Engineers** moving into cloud security roles on Azure.
- **Cybersecurity Professionals** wanting formal cloud security certification.
- **DevSecOps Engineers** securing Azure-based development and deployment pipelines.
- **Cloud Architects** incorporating security into their Azure solution designs.

Eligibility Requirements

The following requirements apply before you can register for the AZ-500 certification. EduEdge advisors will guide you through eligibility verification and the application process.

	PRIMARY PATH	ALTERNATIVE
Recommended Experience	AZ-104 or equivalent Azure administration experience	Strong scripting and security knowledge
Prerequisites	No mandatory prerequisite	Associate level
Training	EduEdge 40-hour programme	Covers all AZ-500 objectives

Exam Details

Exam Code	AZ-500
Questions	40–60
Duration	120 minutes
Domains	Manage Identity & Access Secure Networking Secure Compute, Storage & Databases Manage Security Operations
Passing Score	700/1000
Validity	Renew annually (free online)
Exam Fee	USD 165

Ready to register for AZ-500?

Course Curriculum

Our AZ-500 curriculum is structured around the official Microsoft exam content outline (AZ-500), ensuring complete topic coverage with practical application throughout.

M1	Identity & Access Security Azure AD hardening, Privileged Identity Management, Conditional Access, MFA
M2	Hybrid Identity ADFS, Azure AD Connect, seamless SSO, password protection, identity governance
M3	Platform Protection NSGs, Azure Firewall, WAF, Azure Bastion, Just-In-Time VM Access, DDoS
M4	Secure Compute & Containers VM security, AKS security, container registry scanning, serverless security
M5	Secure Storage & Databases Storage account security, Azure Key Vault, SQL security, Cosmos DB access
M6	Microsoft Defender for Cloud Security posture management, threat protection, regulatory compliance, Secure Score
M7	Microsoft Sentinel SIEM deployment, analytics rules, hunting queries, playbooks, incident management
M8	Exam Preparation AZ-500 domain review, security scenario labs, 600+ practice questions, mock exams

■ **Exam Domain Coverage:** Manage Identity & Access | Secure Networking | Secure Compute, Storage & Databases | Manage Security Operations

Learning Outcomes

By the end of the EduEdge AZ-500 programme, you will be able to:

- Harden Azure Active Directory and implement privileged identity management.
- Secure Azure network infrastructure using firewalls, NSGs, and WAF.
- Protect compute resources including VMs, AKS, and serverless functions.
- Implement data security for Azure storage, databases, and Key Vault.
- Manage security posture using Microsoft Defender for Cloud.
- Deploy and operate Microsoft Sentinel for SIEM/SOAR capabilities.
- Apply regulatory compliance controls within Azure.
- Pass the AZ-500 Azure Security Engineer exam.

Career Opportunities

AZ-500-certified professionals are sought across industries worldwide. Common roles include:

Azure Security Engineer	Cloud Security Analyst	Identity & Access Engineer
DevSecOps Engineer	Security Architect (Azure)	Cloud SOC Analyst
Compliance Engineer	Azure Defender Specialist	Security Operations Analyst

Exam Preparation Strategy

Passing the AZ-500 on your first attempt requires more than content knowledge — it demands a strategic, structured approach. EduEdge provides a 360° preparation ecosystem tailored to this certification.

■ Study Materials Curated notes, quick-reference cards, and formula/concept sheets aligned to exam objectives.	■ Practice Question Bank Extensive exam-style question bank with detailed answer rationale for every question.
■ Timed Mock Examinations Full-length mock exams simulating actual exam conditions with performance analytics.	■ Recorded Sessions Lifetime access to all live session recordings — revisit complex topics anytime.
■ Cohort Study Groups Peer learning groups for collaborative problem solving and accountability.	■ 1:1 Mentorship Direct access to instructors for doubt resolution and personalised study plans.

Recommended Study Timeline

PHASE	FOCUS	APPROXIMATE HOURS
Foundation	Core concepts and AZ-500 framework overview	8–12 hrs
Deep Dive	Domain-by-domain coverage with practice questions	20–30 hrs
Application	Lab work, scenario exercises, and case studies	8–12 hrs
Exam Prep	Mock exams, gap analysis, and revision	10–15 hrs
Final Review	Exam readiness check and last-day strategy	4–6 hrs
