# CompTIA A+

CERTIFICATION PROGRAMME

The Starting Point for Every IT Career

EduEdge Certification: Core 1 (220-1101) + Core 2 (220-1102) + On-Demand

Global Recognition

[www.theeduedge.org](http://www.theeduedge.org) | [info@theeduedge.org](mailto:info@theeduedge.org)

## About the Programme

CompTIA A+ is the world's most trusted IT entry-level certification, covering hardware, software, networking, and troubleshooting fundamentals. Endorsed by major employers including Microsoft, Intel, and Dell, A+ is the definitive proof that you have the skills needed to start an IT support career.

EduEdge's CompTIA A+ programme combines theoretical foundations with hands-on lab simulations covering real-world IT support scenarios. From device setup to OS troubleshooting and basic security, you'll be job-ready before you even sit the exam.

| WHY A+?                                              |                                                                 |                                                    |

## What Makes EduEdge Different?

|                                                                                                                                                                |                                                                                                                                 |
|----------------------------------------------------------------------------------------------------------------------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------|
| <div>■ Exam-Focused Curriculum</div> <div>Every session maps directly to Core 1 (220-1101) + Core 2 (220-1102) exam objectives — zero wasted study time.</div> | <div>■■■ Expert Instructors</div> <div>Certified practitioners with real-world industry experience as your lead trainers.</div> |
| <div>■ Comprehensive Materials</div> <div>Curated notes, quick-reference guides, and access to an extensive question bank.</div>                               | <div>■ Mock Exams &amp; Drills</div> <div>Multiple timed mock exams with detailed rationale to build exam-day confidence.</div> |
| <div>■ Live + On-Demand</div> <div>Attend live virtual sessions or learn at your pace with recorded access.</div>                                              | <div>■ High Pass Rate</div> <div>Structured programme with mentorship resulting in strong first-attempt outcomes.</div>         |

## Programme Highlights

|               |                                                                                          |
|---------------|------------------------------------------------------------------------------------------|
| Duration      | Instructor-led sessions + self-paced recordings                                          |
| Format        | Online (Live Virtual) / In-Person Weekend Batches                                        |
| Exam Training | Fully satisfies CompTIA training requirements                                            |
| Batch Size    | Small cohorts for personalised attention (max 20 participants)                           |
| Language      | English                                                                                  |
| Access        | Lifetime access to recorded sessions & updated materials                                 |
| Certificate   | EduEdge Completion Certificate + Core 1 (220-1101) + Core 2 (220-1102) Exam Support      |
| Next Batch    | Rolling intake — visit <a href="http://www.theedue.org">www.theedue.org</a> for schedule |

## Who Should Attend?

- **Complete IT Beginners** starting their technology career from scratch.
- **Help Desk & Technical Support Staff** wanting formal certification validation.
- **Recent Graduates & School Leavers** seeking their first IT role.
- **Career Changers** moving into IT support and services.
- **Military & Government Personnel** requiring DoD-compliant IT certification.

## Eligibility Requirements

The following requirements apply before you can register for the A+ certification. EduEdge advisors will guide you through eligibility verification and the application process.

|                  | PRIMARY PATH                      | ALTERNATIVE                  |
|------------------|-----------------------------------|------------------------------|
| Experience       | No experience required            | A+ is entry-level            |
| Recommended Prep | 9–12 months IT experience helpful | But not mandatory            |
| Exams            | Must pass both Core 1 & Core 2    | To earn the A+ certification |

## Exam Details

|                |                                                                                                      |
|----------------|------------------------------------------------------------------------------------------------------|
| Exam Codes     | 220-1101 (Core 1) + 220-1102 (Core 2)                                                                |
| Questions      | Max 90 per exam                                                                                      |
| Duration       | 90 minutes each                                                                                      |
| Core 1 Domains | Mobile Devices   Networking   Hardware   Virtualisation & Cloud   Hardware & Network Troubleshooting |
| Core 2 Domains | OS   Security   Software Troubleshooting   Operational Procedures                                    |
| Passing Score  | 675/900 (Core 1)   700/900 (Core 2)                                                                  |
| Exam Fee       | USD 246 per exam                                                                                     |

**Ready to register for A+?**

Our advisors will help you verify eligibility and plan your study path.

## Course Curriculum

Our A+ curriculum is structured around the official CompTIA exam content outline (Core 1 (220-1101) + Core 2 (220-1102)), ensuring complete topic coverage with practical application throughout.

|           |                                                                                                                  |
|-----------|------------------------------------------------------------------------------------------------------------------|
| <b>M1</b> | <b>PC Hardware Fundamentals</b><br>CPUs, RAM, storage, motherboards, PSUs, expansion cards, ports and connectors |
| <b>M2</b> | <b>Mobile Devices</b><br>Smartphones, tablets, laptops, displays, accessories, mobile OS configuration           |
| <b>M3</b> | <b>Networking Basics</b><br>TCP/IP, DNS, DHCP, Wi-Fi standards, switches, routers, basic troubleshooting         |
| <b>M4</b> | <b>Hardware Troubleshooting</b><br>Diagnostic tools, POST errors, peripheral issues, common hardware failures    |
| <b>M5</b> | <b>Operating Systems</b><br>Windows 10/11, macOS, Linux basics, file systems, command line, OS troubleshooting   |
| <b>M6</b> | <b>Security Fundamentals</b><br>Malware types, social engineering, physical security, basic hardening techniques |
| <b>M7</b> | <b>Virtualisation &amp; Cloud</b><br>VM concepts, cloud deployment models, remote desktop, cloud storage basics  |
| <b>M8</b> | <b>Exam Preparation</b><br>Core 1 & Core 2 domain reviews, PBQ practice, 800+ practice questions, mock exams     |

## Learning Outcomes

---

By the end of the EduEdge A+ programme, you will be able to:

- Install, configure, and troubleshoot PC hardware and mobile devices.
- Set up and support wired and wireless networks for home and small business.
- Install, configure, and troubleshoot Windows, macOS, and Linux operating systems.
- Apply basic cybersecurity practices and protect end-user devices.
- Support virtualisation and cloud technologies in IT environments.
- Follow operational procedures including documentation and ticketing.
- Resolve software and hardware issues using structured troubleshooting.
- Pass both CompTIA A+ Core 1 and Core 2 exams.

## Career Opportunities

---

A+-certified professionals are sought across industries worldwide. Common roles include:

|                       |                           |                            |
|-----------------------|---------------------------|----------------------------|
| IT Support Specialist | Help Desk Technician      | Desktop Support Analyst    |
| Service Desk Engineer | IT Technician             | Field Service Engineer     |
| Junior Systems Admin  | Technical Support Analyst | End-User Computing Support |

## Exam Preparation Strategy

Passing the A+ on your first attempt requires more than content knowledge — it demands a strategic, structured approach. EduEdge provides a 360° preparation ecosystem tailored to this certification.

|                                                                                                                          |                                                                                                                          |
|--------------------------------------------------------------------------------------------------------------------------|--------------------------------------------------------------------------------------------------------------------------|
| <b>■ Study Materials</b><br>Curated notes, quick-reference cards, and formula/concept sheets aligned to exam objectives. | <b>■ Practice Question Bank</b><br>Extensive exam-style question bank with detailed answer rationale for every question. |
| <b>■ Timed Mock Examinations</b><br>Full-length mock exams simulating actual exam conditions with performance analytics. | <b>■ Recorded Sessions</b><br>Lifetime access to all live session recordings — revisit complex topics anytime.           |
| <b>■ Cohort Study Groups</b><br>Peer learning groups for collaborative problem solving and accountability.               | <b>■ 1:1 Mentorship</b><br>Direct access to instructors for doubt resolution and personalised study plans.               |

### Recommended Study Timeline

| PHASE        | FOCUS                                             | APPROXIMATE HOURS |
|--------------|---------------------------------------------------|-------------------|
| Foundation   | Core concepts and A+ framework overview           | 8–12 hrs          |
| Deep Dive    | Domain-by-domain coverage with practice questions | 20–30 hrs         |
| Application  | Lab work, scenario exercises, and case studies    | 8–12 hrs          |
| Exam Prep    | Mock exams, gap analysis, and revision            | 10–15 hrs         |
| Final Review | Exam readiness check and last-day strategy        | 4–6 hrs           |
