## About the Programme

The Certified Associate in Project Management (CAPM)® is PMI's entry-level certification, ideal for professionals and students who want to establish their project management credentials early in their career. CAPM validates your understanding of fundamental PM concepts, processes, and terminology as defined by the PMBOK® Guide.

EduEdge's CAPM programme is structured for early-career professionals and career-switchers. Our expert instructors break down complex PM concepts into actionable learning, giving you the confidence and knowledge to pass the CAPM exam and step into your first PM role.

| WHY CAPM®?                                       |                                                 |                                                    |

Our advisors will help you verify eligibility and plan your study path.

# Course Curriculum

Our CAPM® curriculum is structured around the official PMI exam content outline (CAPM), ensuring complete topic coverage with practical application throughout.

|                                                                                    |                                                                                                                                 |
|------------------------------------------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------|
| M1                                                                                 | <b>Introduction to Project Management</b><br>PM terminology, PMBOK 7th edition, project vs operations, PM value delivery        |
| M2                                                                                 | <b>Project Integration Management</b><br>Project charter, project management plan, change management basics                     |
| M3                                                                                 | <b>Scope, Schedule &amp; Cost Management</b><br>WBS creation, schedule development, budgeting, baseline setting                 |
| M4                                                                                 | <b>Quality &amp; Resource Management</b><br>Quality planning, team management, resource allocation principles                   |
| M5                                                                                 | <b>Communications &amp; Stakeholder Management</b><br>Communication planning, stakeholder identification, engagement strategies |
| M6                                                                                 | <b>Risk &amp; Procurement Management</b><br>Risk identification, qualitative/quantitative analysis, procurement basics          |
| M7                                                                                 | <b>Agile &amp; Hybrid Approaches</b><br>Scrum fundamentals, Kanban basics, hybrid project environments                          |
| M8                                                                                 | <b>Exam Preparation</b><br>CAPM ECO review, 500+ practice questions, mock exams, exam strategies                                |
| ■ <b>Exam Domain Coverage:</b> Predictive PM (50%)   Agile/Hybrid Frameworks (50%) |                                                                                                                                 |

## Learning Outcomes

---

By the end of the EduEdge CAPM® programme, you will be able to:

- Understand and apply PMBOK project management principles and knowledge areas.
- Create project charters, WBS structures, and project management plans.
- Apply core risk, quality, and procurement management concepts.
- Demonstrate knowledge of agile and hybrid project delivery approaches.
- Identify and engage stakeholders effectively across the project lifecycle.
- Manage project communications and team dynamics at an associate level.
- Build a strong foundation for future PMP certification.
- Pass the CAPM® exam and establish formal PM credentials.

## Career Opportunities

---

CAPM®-certified professionals are sought across industries worldwide. Common roles include:

|                     |                       |                        |
|---------------------|-----------------------|------------------------|
| Project Coordinator | Project Administrator | Junior Project Manager |
| Business Analyst    | PMO Analyst           | Operations Coordinator |
| IT Support Analyst  | Project Scheduler     | Resource Planner       |

## Exam Preparation Strategy

Passing the CAPM® on your first attempt requires more than content knowledge — it demands a strategic, structured approach. EduEdge provides a 360° preparation ecosystem tailored to this certification.

|                                                                                                                          |                                                                                                                          |
|--------------------------------------------------------------------------------------------------------------------------|--------------------------------------------------------------------------------------------------------------------------|
| <b>■ Study Materials</b><br>Curated notes, quick-reference cards, and formula/concept sheets aligned to exam objectives. | <b>■ Practice Question Bank</b><br>Extensive exam-style question bank with detailed answer rationale for every question. |
| <b>■ Timed Mock Examinations</b><br>Full-length mock exams simulating actual exam conditions with performance analytics. | <b>■ Recorded Sessions</b><br>Lifetime access to all live session recordings — revisit complex topics anytime.           |
| <b>■ Cohort Study Groups</b><br>Peer learning groups for collaborative problem solving and accountability.               | <b>■ 1:1 Mentorship</b><br>Direct access to instructors for doubt resolution and personalised study plans.               |

### Recommended Study Timeline

| PHASE        | FOCUS                                             | APPROXIMATE HOURS |
|--------------|---------------------------------------------------|-------------------|
| Foundation   | Core concepts and CAPM® framework overview        | 8–12 hrs          |
