About the Programme

The AWS Certified DevOps Engineer – Professional (DOP-C02) validates expertise in provisioning, operating, and managing distributed application systems on AWS. It covers SDLC automation, configuration management, monitoring, and security governance — the DevOps practitioner's professional credential.

EduEdge's DOP-C02 programme is designed for experienced AWS DevOps practitioners ready to earn the professional-level credential. Deep coverage of IaC, CI/CD, incident management, and multi-account automation prepares you for the toughest DevOps scenarios.
